

Portable Leaf Area Meter

Model: YMJ-A/YMJ-B

● Characteristics

- ▲ Can test the leaves area without damage.
- ▲ Easy to operate. Be able to test leaf area, average area, length, width, perimeter and ratio of length and width.
- ▲ With Micro-computer technology, LCD display

measuring result display

● Technical parameters

- Test unit: millimeter, square centimeter
- Precision: $\pm 2\%$
- Resolution: 0.01cm^2
- Measuring Length: $\leq 1000\text{mm}$
- Measuring Width: $\leq 160\text{mm}$
- Thickness: $\leq 8\text{mm}$
- Data capacity: ≥ 1000 Groups

● Model Difference

Model	Function
YMJ-A	Without computer interface, only can save and check data on the living leaf area meter
YMJ-B	RS-232 link with computer by software, you can put the datum into computer, and convert datum to excel format and print.
