

A hand is holding a color calibration chart against a white background. The chart is a standard color checker with a grid of colored squares. The chart is held vertically, and the hand is visible on the left side. The chart has a black border and a white background with a grid of colored squares. The colors include various shades of red, yellow, green, cyan, blue, magenta, and black. The chart is held in a way that it is slightly tilted, and the hand is holding it from the bottom left corner. The background is a plain, light-colored surface.

So far, we have established strategic partnership with more than 50 countries and are gaining recognition all over the world.
