

Function display

Sugar Content Concentration BRIX Tester SM-100

Portable Design

Handheld design can be easily measured in anywhere you go.

High Precision Infrared Sensor

Automatic Temperature compensation,
Rapid induction, high temperature and low temperature resistance.

LCD Display, Quickly measure

Clearly color LCD screen.
Testing value can be result in 3 seconds.

Power Saving

It will be power off in after 60 seconds if there is no operation.

► SM-100

Measuring Range	Sugar content :0%~35% Refractive index: 1.3330~1.4012 Temp.:0°C~40°C
Accuracy	±0.2%
Resolution	0.1%
Application	Testing fruits,juice,candy processing, cookie plant,fabric dyeing,CNC cutting fluid,sugarcane processing,icecream making,laboratory testing etc.
