

YIERYI®

4 in 1
water quality meter

PH 0.00-14.00ph

TDS 1-20000PPM

0	Ideal drinking water from reverse osmosis microfiltration etc...
50	Carbon filtration mountain springs or aquifers
100	Hard water(TDS 170)
200	Marginally acceptable
300	High tds water from the tap or mineral springs
400	
500	U.S EPA S maximum contamination lever

Average tap water

EC 1 ~ 19999uS/cm

Conductivity is the total amount of dissolved solids which is the conductivity of the total ions in the water
The quality of the reaction water
