

High Accuracy Multifunction Digital Brix Refractometer SM-200

► Portable Design, Easy to carry on

Handheld design in light weightness, could be easily put in pocket to carry on.

► Auto Temperature Compensation

► High Precision Infrared Sensor

Rapid induction, high temperature and low temperature resistance.

Testing value can be result in 3 seconds.

► TFT Color Display Screen

► Multifunction Display

► Water and dust proof

► Power Saving

Power off after 60 seconds without any operation.

► SM-200

Measuring Range	Sugar content :0%~58% Refractive index: 1.3330~1.4200 Temp.:0°C~40°C
Accuracy	±0.2%
Resolution	0.1%
Application	Testing fruits,juice,candy processing, cookie plant,fabric dyeing,CNC cutting fluid,sugarcane processing,icecream making,laboratory testing etc.
