

Function	GT8907	GT8913
Measure current wind speed, temperature and humidity	√	√
Measurement of current air volume, temperature and humidity	√	√
Measure wind speed/ MAX wind flow/min wind flow	√	√
2/3 wind flow value/ average value	√	√
Wind speed/flow units and temperature units selection	√	√
Measure wind direction angle	√	✗
Backlight and data holding(HOLD)	√	√
Low battery indication	√	√
Automatic shutdown setting	√	√
Real-time measurement when connecting USB with computer software	√	✗
